

# Bill Pay Mobile

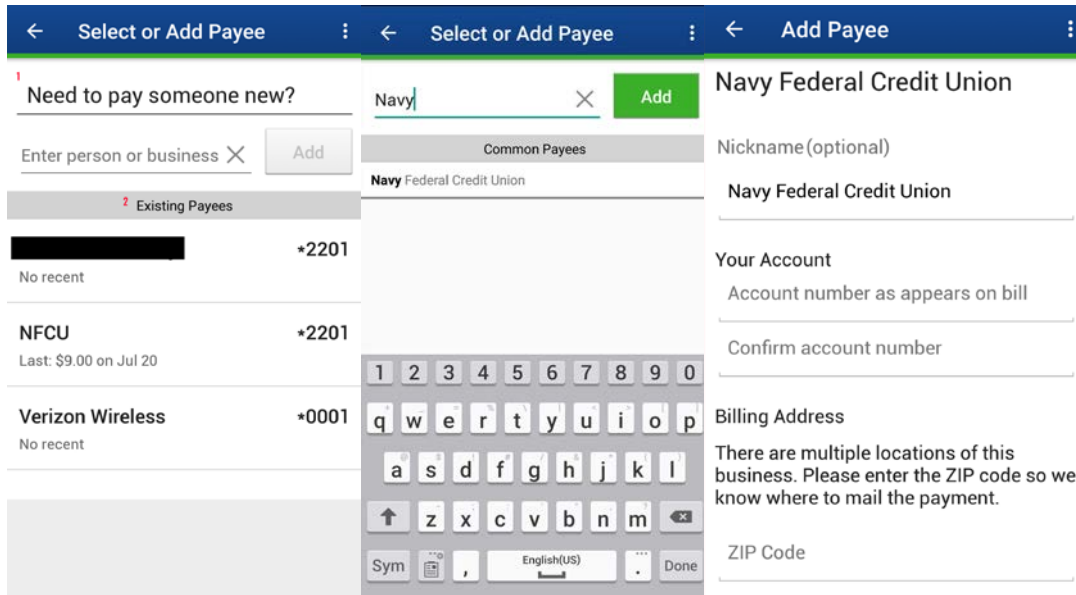

To start using Mobile Bill Pay, open your GEICO FCU Mobile app and select "Bill Pay"

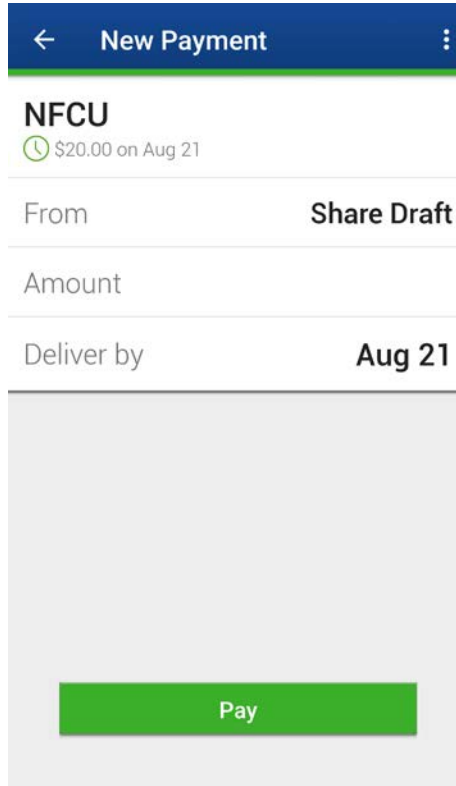

You will be brought to a screen with your payees that are currently scheduled. The screenshot below shows a user with no scheduled payees. To schedule a new payment select "Make a New Payment".

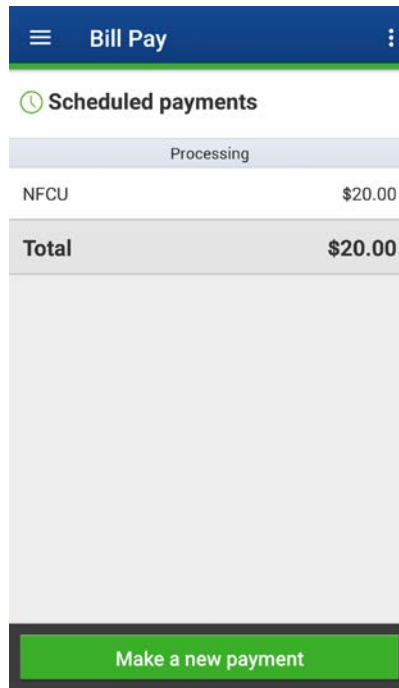

You can choose to create a new payee or select from a list of payees you may have previously set up via Online Banking.

1. Setting up new payees - To add a new payee, make sure you have the Account Number listed on the bill and the Billing Zip Code of the business you are looking to pay. Bill Pay may also ask to verify mailing address.
2. Existing Payees – Shows all payees that were set up either through the GFCU app or Online Banking.

Once you select the payee you would like to schedule, you will be able to select which account to draft, how much and the nearest availability date††. Once you select “Pay” you will be asked to confirm the information.

After the confirmation you should see the payment scheduled on you Bill Pay screen.

† Bill Pay may ask to verify the mailing address if the information is not recognized. These payments may be sent via check if electronic is not available.

†† Electronic payments are paid within 2 - 3 business days, where checks can take up to 3 – 5 business days (after check is sent).
